Target version:	Unassigned CDM tickets		
Severity:	normal	**Found in Version:**	

Description

More an more portal are configured with tabless taxonpages. A specific setup is required for this to look pleasant

Die nötigen Einstellungen sind folgende:

- http://portal.cybertaxonomy.org/roteliste_plantae/admin/appearance/settings/zen_dataportal per css "Synonymy" lables in toc und aus dem Featureblock ausblenden:

```
#synonymy h2 {
display:none;
}

.page-part-toc-item-synonymy {
display:none;
}
```

alternatively in the caryophyllales sryle completely without the TOC:

```
#synonymy h2 {
display:none;
}

#page-toc {
display:none;
}
```

- http://portal.cybertaxonomy.org/roteliste_plantae/admin/config/cdm_dataportal/settings/layout/taxon
  1. Tabbed taxon page deaktivieren
  2. Unter Tabs: Synonymy tab nach oben
  3. Unter Synonymy: anzeige des akzeptierten taxons deaktivieren

Among these portals are:

- http://portal.cybertaxonomy.org/roteliste_plantae
- http://portal.cybertaxonomy.org/salvador
- http://caryophyllales.org/caryophyllales_spp

TODO: Consider implementing such "Quick Singlepage Configuration'" button or document the above names steps at a place where users can easily find it.
