### Associated revisions

#### Revision 9cc4e8ba - 05/16/2022 04:51 PM - Andreas Müller

replace cybertaxonomy.eu by .org in cdmserver-install.sh

### History

#### #1 - 03/31/2022 09:52 AM - Andreas Müller

- Related to task #9969: Get utis jmeter test running or switch off test added
- Related to bug #10004: fix edit-name-catalogue-jmeter-tests added

#### #2 - 04/07/2022 08:55 AM - Andreas Müller

- Related to task #10008: Cleanup after server upgrades added

#### #3 - 05/12/2022 11:03 PM - Andreas Müller

- Start date changed from 04/04/2022 to 04/06/2022

#### #4 - 05/16/2022 04:37 PM - Andreas Müller

- Related to task #9513: "table to div regression": replace scriptler + dynamic parameter plugins added

#### #5 - 05/16/2022 05:21 PM - Andreas Müller

- % Done changed from 0 to 40

There are/were multiple problems.

TRIGGER-cdmserver-reindex:

1. No groovy was installed at all on the server
  - installed v4.0.2 now (but maybe not needed? Need to check other servers)
2. Multiple errors in script filtered-cdmserver-instance-names-args.groovy (like wrong argument number in args for datasources\_xml, already used variable names like filterIncludes and its boolean value, changed variable names for filter\_str, ...)
3. The downstream job "cdmserver-update" still used svn for server-scripts download => changed to new git repository
4. The server script /jenkins-ci/cdm-server/cdmserver-install.sh still used cybertaxonomy.eu instead of cybertaxonomy.org to download the cdmserver debian package

#### #7 - 05/19/2022 09:12 PM - Andreas Müller

- Related to bug #7579: Set up pipelines in Jenkins to replace the build pipelines added

**#8 - 07/29/2022 08:20 PM - Andreas Müller**

- Target version changed from Release 5.32 to Release 5.33

**#9 - 07/30/2022 10:51 PM - Andreas Müller**

- Status changed from New to Resolved

- Target version changed from Release 5.33 to Release 5.32

- % Done changed from 40 to 80

This is more or less done. Maybe still need to do some cleanup.

**#10 - 08/02/2022 09:42 PM - Andreas Müller**

- Severity changed from critical to normal

**#11 - 08/04/2022 08:34 AM - Andreas Müller**

- Status changed from Resolved to Feedback

upgrading some plugins lead to a cycle in dependencies which disabled many plugins. The main reason seems to be

```
Cycle detected: Plugin:sshd -> Plugin:mina-sshd-api-core -> Plugin:ssh-credentials -> Plugin:credentials -> Plugin:structs -> Plugin:sshd
```

which disables the structs plugin which is needed by many others indirectly

**#12 - 08/04/2022 08:37 AM - Andreas Müller**

- Status changed from Feedback to Resolved

Andreas Müller wrote in [#note-11](#):

upgrading some plugins lead to a cycle in dependencies which disabled many plugins. The main reason seems to be

```
Cycle detected: Plugin:sshd -> Plugin:mina-sshd-api-core -> Plugin:ssh-credentials -> Plugin:credentials -> Plugin:structs -> Plugin:sshd
```

which disables the structs plugin which is needed by many others indirectly

This was only an intermediate problem as not all plugins were updated yet.

**#13 - 08/25/2022 08:16 PM - Andreas Müller**

- Status changed from Resolved to Closed

- % Done changed from 80 to 100
