Target version:	Release 5.31	Found in Version:	
Severity:	normal		
Description			
<p>Hallo, (Mexico) ich habe mal Taxa verschoben, und zwar die Familien direkt unter die Hauptgruppe Pteridofita, das klappte. Dann eine neue Klassifikation erstellt („Rangos excluidos“) und versucht, die 3 nun obsoleten Unter-Hauptgruppen dahin zu verschieben. Untenstehender Fehler kommt dann 3x. Ich hatte allerdings einen unteren Rang noch offen, vielleicht lag es daran. Habe neu gestartet, komme jetzt aber nicht mehr an den Server ran (timeout). Herzlichen Gruß Walter</p> <pre>last remote method : http://132.248.13.83:8080/cdmserver/cdm_flora_mexico/remoting/progressmonitor .service last remote request client time : 2022-03-28T10:33:48.463 last remote request response header time : Mon, 28 Mar 2022 16:31:29 GMT client error time : 2022-03-28T10:33:49.292 login : w.berendsohn editor version : 5.30.0 server : 132.248.13.83 (Mexico) / cdm_flora_mexico schema version : 5.29.0.0.20211122 os : Windows 10 10.0 amd64 java : 1.8.0_321 org.eclipse.swt.SWTException: Failed to execute runnable (org.eclipse.e4.core.di.InjectionException: java.lang.NullPointerException) at org.eclipse.swt.SWT.error(SWT.java:4533) at org.eclipse.swt.SWT.error(SWT.java:4448) at org.eclipse.swt.widgets.Synchronizer.runAsyncMessages(Synchronizer.java:185) at org.eclipse.swt.widgets.Display.runAsyncMessages(Display.java:4211) at org.eclipse.swt.widgets.Display.readAndDispatch(Display.java:3827) at org.eclipse.jface.window.Window.runEventLoop(Window.java:818) at org.eclipse.jface.window.Window.open(Window.java:794) at org.eclipse.jface.dialogs.ErrorDialog.open(ErrorDialog.java:346) at eu.etaxonomy.taxeditor.model.MessagingUtils\$1.run(MessagingUtils.java:278) at org.eclipse.swt.widgets.RunnableLock.run(RunnableLock.java:35) at org.eclipse.swt.widgets.Synchronizer.runAsyncMessages(Synchronizer.java:182) at org.eclipse.swt.widgets.Display.runAsyncMessages(Display.java:4211) at org.eclipse.swt.widgets.Display.readAndDispatch(Display.java:3827) at org.eclipse.e4.ui.internal.workbench.swt.PartRenderingEngine\$4.run(PartRenderingEngine.java:1121) at org.eclipse.core.databinding.observable.Realm.runWithDefault(Realm.java:336) at org.eclipse.e4.ui.internal.workbench.swt.PartRenderingEngine.run(PartRenderingEngine.java:1022) at org.eclipse.e4.ui.internal.workbench.E4Workbench.createAndRunUI(E4Workbench.java:150) at org.eclipse.ui.internal.Workbench\$5.run(Workbench.java:693) at org.eclipse.core.databinding.observable.Realm.runWithDefault(Realm.java:336) at org.eclipse.ui.internal.Workbench.createAndRunWorkbench(Workbench.java:610) at org.eclipse.ui.PlatformUI.createAndRunWorkbench(PlatformUI.java:148) at eu.etaxonomy.taxeditor.Application.start(Application.java:20) at org.eclipse.equinox.internal.app.EclipseAppHandle.run(EclipseAppHandle.java:196) at org.eclipse.core.runtime.internal.adaptor.EclipseAppLauncher.runApplication(Eclipse</pre>

Revision accd2ed4 - 04/01/2022 08:57 AM - Katja Luther

ref #100016: fix NPE

History

#1 - 04/01/2022 09:03 AM - Katja Luther

- Due date set to 04/01/2022
- Status changed from New to Resolved
- Assignee changed from Katja Luther to Andreas Müller
- Start date set to 04/01/2022
- % Done changed from 0 to 80
- Estimated time set to 0:06 h

This is fixed by checking whether the value of the attribute is null.

#2 - 04/04/2022 08:55 PM - Andreas Müller

- Status changed from Resolved to Closed
- Assignee changed from Andreas Müller to Katja Luther
- % Done changed from 80 to 100

Seems to work as expected and code changes look reasonable.
