#7 - 05/16/2022 08:45 AM - Katja Luther

see <https://www.drupal.org/docs/upgrading-drupal/how-to-prepare-your-drupal-7-or-8-site-for-drupal-9/upgrading-a-drupal-8-site>

- First update drupal to 8.8 or 8.9, these versions are compatible with the drupal 9 API. (actual version 8.6.10)
- Update all modules to the drupal version.
- Use Composer to manage Drupal dependencies. Drush 9 and newer no longer supports updating Drupal.(see <https://www.drupal.org/docs/updating-drupal/updating-drupal-core-via-drush>)
- <https://drupalize.me/tutorial/update-drupal-versions-prior-88x-using-composer?p=3233>

#8 - 05/17/2022 11:46 AM - Katja Luther

- Status changed from New to In Progress

Updated to 8.9, now the update to drupal 9 should work.

-> To check whether everything is compatible with drupal 9, install drupal check (<https://github.com/mglaman/drupal-check>)

- the menu was broken after update, therefore the custom urls for the cybertaxonomy theme needed to be updated to <https://cybertaxonomy.org/theme/custom/>....

#9 - 05/20/2022 02:50 PM - Katja Luther

- Status changed from *In Progress* to *Resolved*

- Assignee changed from *Katja Luther* to *Andreas Müller*

cybertaxonomy.org is updated to 9.3 and using core-recommended (see <https://github.com/drupal/core-recommended>), the file structure is adapted to the actual recommended structure for drupal projects.

Please have a look whether everything works as expected.

#10 - 05/20/2022 02:51 PM - Katja Luther

- % Done changed from 0 to 70

#11 - 07/08/2022 11:21 PM - Andreas Müller

On <https://cybertaxonomy.org/node/4/edit> I tried to change the link for "Taxonomic Editor (TaxEditor)" from "<http://wp5.e-taxonomy.eu/taxeditor/>" to "<https://cybertaxonomy.org/taxeditor/>" in the pop-up dialogue but when saving the dialogue I always get:

"An error occurred while attempting to process
/editor/dialog/link/basic_html?_wrapper_format=drupal_modal&ajax_form=1&_wrapper_format=drupal_ajax: ajax.\$form.ajaxSubmit is not a function"

#12 - 07/10/2022 10:37 AM - Andreas Müller

Editing text on https://cybertaxonomy.org/setups/group/server_requirements does not work. The text seems to be stored elsewhere. Maybe this is to avoid redundancy.

#13 - 07/21/2022 07:00 PM - Andreas Müller

- Priority changed from *New* to *Priority14*

#14 - 07/26/2022 01:36 PM - Andreas Müller

- Private changed from *Yes* to *No*

#15 - 08/25/2022 10:35 AM - Katja Luther

Problems with url editing is fixed with an update to 9.4.5

#16 - 08/25/2022 03:29 PM - Andreas Müller

There are still folders `"/var/www/drupal-8.9"`, `"/var/www/drupal-8"` and `"/var/www/_drupal-8"` on edit-community. Can they be removed or archived?

#17 - 08/25/2022 03:41 PM - Andreas Müller

- File `clipboard-202208251540-b4bxw.png` added

Uploading an image while editing content (in basic html mode) did not work. I always got the following error:

Insert Image ✕

✕ The file could not be uploaded.

Image *

Keine Datei ausgewählt.

Alternative text *

Short description of the image used by screen readers and displayed when the image is not loaded. This is important for accessibility.

- Status changed from Resolved to Feedback
- Assignee changed from Andreas Müller to Katja Luther
- % Done changed from 70 to 80

Also the old drupal databases should be archived?

#19 - 08/26/2022 09:58 AM - Katja Luther

Andreas Müller wrote in [#note-17](#):

Uploading an image while editing content (in basic html mode) did not work. I always got the following error:

Maybe this is because of right issues, I will have a look.

-> changed the group to www-data (the apache user) and add write rights to the group for the "files" directory.

-> This should be fixed now. I tried to upload an image and there was no error anymore.

#20 - 08/26/2022 11:51 AM - Katja Luther

- Status changed from Feedback to Resolved

Andreas Müller wrote in [#note-18](#):

Also the old drupal databases should be archived?

All old drupal directories and drupal databases are backedup to /var/backups/archived-www

The database drupal9-edit is not used, I will remove it and rename the drupal8-edit database.

- Assignee changed from Katja Luther to Andreas Müller

Please have a look whether everything works now. I checked adding an image and editing the text, also the layout is the same as before.
