

EDIT - bug #10084

Adding a new specimen to character matrix fails

06/28/2022 11:43 AM - Katja Luther

Status:	Closed	Start date:	
Priority:	Priority14	Due date:	
Assignee:	Katja Luther	% Done:	90%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.32	Found in Version:	
Severity:	normal		

Description

The following exception appears when trying to save the character matrix after adding a new specimen:

Generally the bug seems to be fixed and the ticket can be closed.

Only the handling of descriptionType in the code changes I do not fully understand/like. Loading all data and then filtering by type does not seem to be the most performant way. Isn't it possible to use a like-search eg. parameter like "%#AGG%" or something similar? Have you tested this and it does not work or is the current solution a quick-fix to get the search running at all?

If it is a quick-fix we should create a new ticket for this related issue, I guess.

If it is a quick-fix we should create a new ticket for this related issue, I guess.

Sometimes it needs a break, than a better solution could be found. I solved it with ":descriptionType IN d.types"

Did you test this, or better is there a test that proves that it works? I asked because types is an enum of termtype which is mapped to hibernate via a self-written usertype. Therefore I doubt that it works like an ordinary collection.

Sometimes it needs a break, than a better solution could be found. I solved it with ":descriptionType IN d.types"

Neither "LIKE '#AGG'" (types is not of type string) nor the "IN d.types" works, so I would come back to the workaround implementation as long as we do not have a better solution.

- % Done changed from 60 to 90

It looked to me as you did not yet revert, so I tried to do this by [78d9e692](#). Please review. I already checked on nightly and adding a specimen still works.

I created a new ticket for the filter by description type issue which is not really related to this ticket as a description type filter does not exist here.

We can close the ticket after your final review.
