

## EDIT - bug #10119

### New source should appear at the beginning of the list

08/24/2022 11:50 AM - Katja Luther

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	New	<b>Due date:</b>	
<b>Assignee:</b>	Katja Luther	<b>% Done:</b>	0%
<b>Category:</b>	taxeditor	<b>Estimated time:</b>	0:00 hour
<b>Target version:</b>	Unassigned CDM tickets	<b>Found in Version:</b>	
<b>Severity:</b>	normal		
<b>Description</b>			
Currently a new source details element appears at the end of a list of not saved sources, but should appear at the beginning of the whole list. After saving a new source details element already appears correctly at the beginning of the list.

- Description updated

This needs further discussion on how to implement. The current implementation uses the fact that unpersisted CdmBase objects have id=0. This does not work if  $n(\text{unpersistedObjects}) > 1$ . So we need to decide how to distinguish these objects for sorting.  
Also we need to discuss, how the objects should be sorted if there are  $> 2$  such objects. Should they always be sorted by time of local (in Editor) creation?
