On production it is https://caryophyllales.org/cactaceae/cdm_dataportal/reference/b5d153d4-97a7-4f3d-b1f1-a0765bdd3edd . Please always add such links to tickets if they exist in mails. It makes it much easier to reproduce

On test I do not know an example. So maybe you can search one or copy caryo production to test. Then it should exist there too if the portal configuration is the same.
