

## EDIT - feature request #10156

### Show field unit media in taxon image galleries

09/14/2022 12:12 PM - Andreas Müller

<b>Status:</b>	In Progress	<b>Start date:</b>	
<b>Priority:</b>	New	<b>Due date:</b>	
<b>Assignee:</b>	Katja Luther	<b>% Done:</b>	0%
<b>Category:</b>	cdm-dataportal	<b>Estimated time:</b>	0:00 hour
<b>Target version:</b>	Release 5.43		
<b>Severity:</b>	normal		
<b>Description</b> Currently, images in the image galleries are only shown if the unit is directly related to the taxon (or is a derivate - not tested). It should be configurable that also images of the originals of derived units are shown (or concrete field unit images should be shown if derived units are related to the taxon).

ref #10156: do not show preference for field unit media as long as it does not work

#### History

**#1 - 09/14/2022 12:16 PM - Andreas Müller**

- Target version changed from Unassigned CDM tickets to Release 5.33

**#2 - 09/29/2022 01:31 PM - Katja Luther**

- Status changed from New to In Progress

Added a parameter to the service methods to list also the media of the originals of a specimen or observation.

**#3 - 10/11/2022 08:58 AM - Andreas Müller**

- Target version changed from Release 5.33 to Release 5.35

**#4 - 11/29/2022 07:04 PM - Andreas Müller**

- Target version changed from Release 5.35 to Release 5.44

I guess this can not be handled in the current milestone, but maybe in the next one.

**#5 - 02/14/2024 11:26 PM - Andreas Müller**

- *Target version changed from Release 5.44 to Release 5.43*

As this is related to specimen and media gathering I move it to current milestone.
