

EDIT - bug #10172

Registration not found in phycobank portal though it exists

10/18/2022 06:32 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Wolf-Henning Kusber	% Done:	100%
Category:	cdmlib-remote	Estimated time:	0:00 hour
Target version:	Release 5.34	Found in Version:	
Severity:	normal		
Description			
e.g. http://phycobank.org/100097			
I guess also https://phycobank.org/100172 and https://www.phycobank.org/cdm_dataportal/registration?identifier=http%3A//phycobank.org/100147 are such issues. => no these are different cases			
Same problem exists on test: https://test.e-taxonomy.eu/dataportal/preview/phycobank/cdm_dataportal/registration?identifier=http%3A//phycobank.org/100097 with webservice https://test.e-taxonomy.eu/cdmserver/phycobank/registrationDTO.json?identifier=http://phycobank.org/100097			

Associated revisions

Revision b03736a2 - 10/27/2022 09:31 PM - Andreas Müller

ref #10172 handle duplicate identifiers and no matches correctly in registration controller

History

#1 - 10/18/2022 06:36 PM - Andreas Müller

- Description updated

#2 - 10/27/2022 10:13 PM - Andreas Müller

- Status changed from New to In Progress

- % Done changed from 0 to 60

The problem is that for <http://phycobank.org/100097> exist 2 registrations with status "published". This is not allowed. However the wrong status message is sent back, probably because response.sendError is called 2x.

This has been changed. However, the main problem are the data.

We could also try to improve the message handling in this case.

#3 - 10/27/2022 10:20 PM - Andreas Müller

- Description updated

#4 - 10/27/2022 10:21 PM - Andreas Müller

```
SELECT r.identifier
FROM Registration r
GROUP BY r.identifier
HAVING COUNT(*) > 1
```

#5 - 10/27/2022 10:44 PM - Andreas Müller

- Status changed from In Progress to Resolved

- Assignee changed from Andreas Müller to Wolf-Henning Kusber

- Priority changed from New to Highest

- % Done changed from 60 to 70

Sent mail to WHK to clean the data itself. I guess we can close this ticket if we do not want to improve the error handling in the dataportal also. But I

guess this is not so important, the resulting webservices do give more information now so the error can be easily debugged if it occurs again.

#6 - 10/28/2022 01:02 PM - Andreas Müller

Also check that specific identifier and identifier match

```
SELECT r.*
FROM Registration r
WHERE r.identifier <> CONCAT ('http://phycobank.org/', r.specificIdentifier);
```

#7 - 10/28/2022 02:35 PM - Andreas Müller

- Target version changed from Release 5.35 to Release 5.34

#8 - 10/28/2022 05:37 PM - Andreas Müller

- Status changed from Resolved to Closed

- % Done changed from 70 to 100

The data is also cleaned now so I guess we can close this ticket.
