

EDIT - task #10187

Use only 1 service call to initialize supplemental data

11/22/2022 03:09 PM - Andreas Müller

Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	0%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.44		
Severity:	normal		
Description			
<p>Currently for initializing supplemental data of e.g. a synonym in TaxEditor 7 services calls appear, 1 for each data type. We should try to run only 1 service call.</p> <p>Not clear yet what the best solution is. Maybe we could add an "initializeSupplementalData(cdmEntity)" method to the services or to the common service which then does the initialization at once.</p>
