

EDIT - bug #10191

Error message on taxon specimen page for non-atomized specimens

11/25/2022 10:02 AM - Katja Luther

Status:	Closed	Start date:	
Priority:	Priority13	Due date:	
Assignee:	Katja Luther	% Done:	100%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 5.35	Found in Version:	
Severity:	normal		
Description			
Message is: Uninitialized string offset: -1 in drupal_substr() (line 640 of /var/www/drupal-7-cdm-dataportal/web/includes/unicode.inc example: https://cichorieae.e-taxonomy.net/portal/cdm_dataportal/taxon/b335ceee-d6c1-4c93-841d-3b4bd279d855/specimens

History

#1 - 11/25/2022 12:35 PM - Andreas Müller

- Target version changed from Release 5.44 to Release 5.35

#2 - 11/30/2022 04:15 PM - Katja Luther

- File Screenshot 2022-11-30 161421.png added

This is caused by not atomised specimen, so the fields of the dto are not filled. We could use the summarylabel of the fieldunit dto, but that is not always a nice looking string. For the example mentioned above it would be the location, see screenshot

Country	Date	Collector + collecting number	Herbaria	Type	Scan	Derivatives
12°38'48.6"N, 53°27'44.4"E						
12°38'50.4"N, 53°27'45.4"E						
12°39'26.7"N, 53°26'24.3"E						

#3 - 12/01/2022 09:54 AM - Katja Luther

- Status changed from New to Resolved

- Assignee changed from Katja Luther to Andreas Müller

Please review, as test you could use the same taxon on test:

https://test.e-taxonomy.eu/dataportal/preview/cichorieae/cdm_dataportal/taxon/b335ceee-d6c1-4c93-841d-3b4bd279d855/specimens

#4 - 12/14/2022 11:11 AM - Andreas Müller

- Subject changed from *Uninitialized string offset: -1 in drupal_substr() (line 640 of /var/www/drupal-7-cdm-dataportal/web/includes/unicode.inc to Error message on taxon specimen page for non-atomized specimens*
- Description updated
- % Done changed from 0 to 70

#5 - 12/14/2022 11:28 AM - Andreas Müller

- Status changed from *Resolved to Feedback*
- Assignee changed from *Andreas Müller to Katja Luther*

This is definitely much better than before as the error messages are not shown anymore and the fields are filled with some information at least.

@Norbert: as this is your data (and I think there are many such partly atomized data in Cichorieae), what do you think about the solution?

@Katja: is there a reason why you span the text also over *Herbaria* and *Types*? As *Herbaria* and *Types* is usually a preserved specimen information and not a field unit information this might be a bit confusing. Especially if there is *Herbaria* information available which is not shown this way.

#6 - 12/14/2022 08:42 PM - Andreas Müller

NoK:

https://test.e-taxonomy.eu/dataportal/preview/cichorieae/cdm_dataportal/taxon/b335ceee-d6c1-4c93-841d-3b4bd279d855/specimens looks OK for the time being.

The number of only partly atomized specimen data should be manageable.

#7 - 12/19/2022 01:21 PM - Katja Luther

- Status changed from *Feedback to Resolved*
- Assignee changed from *Katja Luther to Andreas Müller*

For unatomized field unit informations the label covers only the rows of field unit information, please review.

#8 - 12/19/2022 03:31 PM - Andreas Müller

- Tags set to *specimens-view-table*
- Priority changed from *New to Priority13*
- % Done changed from 70 to 90

Looks fine.

We should do a final review on production after release.

#9 - 01/06/2023 08:49 PM - Andreas Müller

- Status changed from *Resolved to Closed*
- Assignee changed from *Andreas Müller to Katja Luther*
- % Done changed from 90 to 100

This looks fine also on production so we close the ticket.

The data itself should still be cleaned up.
