- Tags set to fast
- Target version changed from Unassigned CDM tickets to Release 5.44

I think we should try to implement it asap as this are only small issues and to fully close this issue. If it is more complicated than I expect it to be please leave a note.

For the check cdmlib version the basic version is implemented now.

**#11 - 04/11/2023 10:12 AM - Katja Luther**

- Status changed from In Progress to Resolved

- Assignee changed from Katja Luther to Andreas Müller

- % Done changed from 0 to 60

Please review.

**#12 - 04/12/2023 10:01 AM - Andreas Müller**

Minor issues:

- Documentation of the class and the methods is often not correct. Also IMO we can fully documentation which does not give any further information such as `<p>Abstract CdmDataSourceCredentialsWizardPage class.</p>` or `@param pageName a {link java.lang.String} object.` . Removing such documentation makes the code better/faster readable
- The label "Datasource Dialog" should be adapted to the according label ("Remote servers")

**#13 - 04/12/2023 10:48 AM - Belen Escobari**

- Target version changed from Release 5.44 to Release 5.37

**#14 - 04/12/2023 11:01 AM - Andreas Müller**

- Status changed from Resolved to Feedback

- Assignee changed from Andreas Müller to Katja Luther

- % Done changed from 60 to 90

Everything works as expected. One more nice-to-have issue: allow "move up" and "move down" via d&d or context menu.

**#15 - 04/13/2023 03:56 PM - Andreas Müller**

- Status changed from Feedback to Closed

- % Done changed from 90 to 100

Works as expected now an can be closed.
