ref #10310 Add IUCN Status as feature

History

#1 - 04/27/2023 12:11 PM - Andreas Müller

- Related to task #10308: Show IUCN "distribution" data separately added

#3 - 05/09/2023 10:50 AM - Andreas Müller

- Status changed from New to Resolved

- Target version changed from CDM UML 5.43 to Release 5.44

- % Done changed from 0 to 70

Mostly implemented.

We only need to check for existing databases that the status is correctly merged.

As it may support TextData, Distribution or CategoricalData I decided to support by default only TextData and the unser may need to switch to any of the other categories if needed.

#5 - 05/09/2023 01:40 PM - Andreas Müller

- % Done changed from 70 to 90

The uuid for the new feature is '0b17d701-4159-488e-a6e7-0045992e61af'.

I updated 'IUCN category' (flora of greece) and 'Red Data Book category' (flora of cyprus) to use this uuid. Also moved the features to the CDM vocabulary in all production databases.

This should be fully fixed.
