

EDIT - feature request #10337

Allow supportedCategoricalEnumeration and recommendedModifiers for term collection

05/29/2023 01:20 AM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Müller	% Done:	70%
Category:	cdm	Estimated time:	0:00 hour
Target version:	Release 5.38		
Severity:	normal		
Description			
... not only for vocabularies			
These lists should be adapted as good as possible to the needs of a given project, so it should be much more flexibel then when using vocabularies only.

History

#1 - 05/30/2023 04:56 PM - Andreas Müller

- Related to bug #10340: Categorical and Quantitative Data details view must only show recommended modifiers added

#2 - 05/30/2023 05:04 PM - Andreas Müller

- Status changed from New to Resolved
- Assignee changed from Andreas Müller to Katja Luther
- Priority changed from New to Highest
- % Done changed from 0 to 70

This should be fixed. Please review (especially if all functionality still works and if the code looks correct). I also did some renaming of classes in taxEditor to have it more consistent.

Can you also check if all classes are still needed?

There are e.g. classes like

RecommendedModifierCollectionsCollectionSection/RecommendedModifierCollectionsDtoCollectionSection
RecommendedModifierCollectionsElement/RecommendedModifierDtoCollectionsElement
RecommendedStateCollectionElement/RecommendedStateCollectionsDtoElement
RecommendedStateCollectionSection/RecommendedStateDtoCollectionsSection

Can the non-dto classes be deleted?

#3 - 05/30/2023 05:05 PM - Andreas Müller

Please also check if [#10340](#) can easily be fixed as it is related to this ticket.

#4 - 06/01/2023 09:54 AM - Katja Luther

- Status changed from Resolved to Closed
- Assignee changed from Katja Luther to Andreas Müller

Can you also check if all classes are still needed?

There are e.g. classes like

RecommendedModifierCollectionsCollectionSection/RecommendedModifierCollectionsDtoCollectionSection
RecommendedModifierCollectionsElement/RecommendedModifierDtoCollectionsElement
RecommendedStateCollectionElement/RecommendedStateCollectionsDtoElement
RecommendedStateCollectionSection/RecommendedStateDtoCollectionsSection

Can the non-dto classes be deleted?

I tested to add a tree as recommended state collection and as recommended modifier collection, this worked as expected.

Currently we need the dto and the non-dto elements because the vocabulary view still uses cdm entities
