Description			
mail ERS:			
gerade ist mir aufgefallen, dass im Portal die Details der bibliografischen Fußnoten verschwunden sind, siehe screenshot unten.			
Es macht wenig Sinn, wenn die Fußnote nicht mehr Informationen liefert als der Haupttext. Das war bisher nicht so, muss wohl mit dem neuen Release zusammenhängen.			
Viele Grüße, Ekchard

The err. sec. reference is still not shown correctly:

-
- "*Abies pinus*" sensu K. A. Wilson 1960: 22¹, non L., err. sec. ²
 - ▷ *Abies balsamea* (L.) Mill., Gard. Dict., ed. 8: <i>Abies</i> No. 3. 1768 sec. Raab-Straube, E. von (2014+): Gymnospermae. – In: Euro+Med Plantbase - the information resource for Euro-Mediterranean plant diversity.
1. K. A. Wilson 1960: A nice article. – Journal of the Arnold arboretum 41. p 22¹, 2. T. C. G. Rich 2007.

This is already fixed:

No it is not, this was only because the page was not shown in DTO modus. I switched it back.

The DTO version shows link for internal and external reference:

1. K. A. Wilson 1960: A nice article. – Journal of the Arnold arboretum 41. p 22¹, 2. T. C. G. Rich 2007: Very interesting information about something. – Watsonia; journal of the botanical society of the British Isles 26²

which is not the case for the non-DTO version:

1. K. A. Wilson 1960: A nice article. – Journal of the Arnold arboretum 41¹, 2. T. C. G. Rich 2007: Very interesting information about something. – Watsonia; journal of the botanical society of the British Isles 26

I guess it should be configurable somehow, if internal links for references are generally shown or not. For E+M on test they are also not shown in the general bibliography.

- Status changed from Feedback to Resolved

Because of missing time I implemented it like it is in the current not dto implementation, I create a new ticket for making it configurable.

But the current non-DTO version does *not* show the internal links. So it is not 100% implemented as in the non-dto version.

However, as there is a new ticket for this remaining issue we can close this ticket.
