EDIT - task #2387

make name and location of ~/.cdmlibrary folder configurable

05/18/2011 04:16 PM - Niels Hoffmann

Status:	New	**Start date:**	
Priority:	Priority13	**Due date:**

Category:	cdmlib	**Estimated time:**	0:00 hour
Target version:	Unassigned CDM tickets		
Severity:	major		

Description

We are referencing the ~/.cdmlibrary folder in various parts in the library. It also seems like there is no central method to get the location and the path to this folder is always build by hand.

We want to have a central location where the path as well as the name of this folder can be configured and retrieved. Preferably via spring.
