

EDIT - bug #2450

DateTime field - Old values do not get deleted if you enter a new value to the parse field

06/15/2011 12:03 PM - Niels Hoffmann

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Katja Luther	% Done:	100%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Release 5.0	Found in Version:	
Severity:	normal		
Description			
E.g. you first enter 3.5.1987 into the parse field resulting in year = 1987, month = 5, day = 3, then you enter "anydate" in the parse field. The old atomized values are still to be seen, whereas the freetext field shows "anydate".			
One may discuss if this is wanted behaviour. However, the values are not saved so after reopening they are not there anymore, so this is for sure not wanted behaviour.

Hi Katja, I think you have just recently fixed this issue. Can you please link as duplicate or if not ticket exist yet use ticket to link the code?

I think we should discuss whether this is not the wanted behaviour, because the atomised data are filled by the parsed text not by the freetext.
