

EDIT - bug #2578

Improve "move synonym"

08/31/2011 05:25 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Müller	% Done:	100%

Target version:	cdmlib RELEASE 3.1.3	Found in Version:	
Severity:	critical		
Description			
The current implementation of ITaxonService.moveSynonymToAnotherTaxon is not fully correct yet. We need to throw an exception if the synonym is part of a homotypical group (size > 1). Additionally we need a method to move a homotypical group (all synonyms of a homotypical group) to another taxon. Also check that the synonym to move is not part of the homotypical group of the accepted taxon. see also #2585

the implementation should be correct now and can be used by drag&drop (r22279 und r22252)

#10 - 05/30/2018 10:35 AM - Andreas Müller

- *Description updated*

- *% Done changed from 0 to 40*

#11 - 12/22/2020 12:14 AM - Andreas Müller

- *Status changed from Resolved to Closed*

- *Private changed from Yes to No*

Now we always move the full homotypical group to the other taxon, so this is fixed.

The check that the synonym is not part of the other taxon is not really necessary (up to the user to not do this wrong).
