Status:	New	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	0%
Category:	cdmlib	Estimated time:	0:00 hour
Target version:	Unassigned CDM tickets		
Severity:	normal		
Description			
currently eu.etaxonomy.cdm.config.Configuration.luceneVersion provides the lucene version number for lucene related instances.			
A better solution for the future would be to provide all Lucene related instances of LuceneSearch, etc via a special factory. This factors would be a spring bean and thus could have access to the hibernate configuration.			
see java doc of eu.etaxonomy.cdm.config.Configuration.luceneVersion
