Description

What I did:

for any given taxon name (without nom. ref.) I added a new nom. ref. of type database. The label of the nom. ref. did show "null" and not the databases titlecache.

Databases usually can not be nom.refs. However, some data is dirty and should be still shown correctly.

Maybe this is also the case for some other reference types.

Associated revisions

Revision 81f9e9a5 - 03/11/2017 11:29 PM - Andreas Müller

fix #3532 write test for "null" nom ref for databases, cdDvd and webpage, original issue was fixed already
