EDIT - feature request #3740

Allow recursively setting the publish bit for TaxonBase

09/27/2013 02:31 PM - Andreas Müller

Status:	Closed		**Start date:**	
Priority:	Highest		**Due date:**	
Assignee:	Andreas Müller		**% Done:**	100%
Category:	cdmlib		**Estimated time:**	0:00 hour
Target version:	Release 4.10			
Severity:	critical			

Description

implemented into ITaxonService (source:trunk/cdmlib/cdmlib-services/src/main/java/eu/etaxonomy/cdm/api/service/ITaxonService.java) a method to set the publish bit recursively for all taxa of a classification subtree, including synonyms if wanted (configurable).

This is similar to setting the sec reference for subtrees: #3870

see

- #1780 (Publish bit instead of marker)

- #3739 (Allow editing of publish bit for Taxon and SpecimenOrObservationBase)

- #3560 (Withheld unpublished taxa and specimen from webservice results and in DAOs)

_____

this is a prerequisite for #4155 (implement handler (IHandler) to trigger recursive setting of the publish bit on a whole calssification branch)
