EDIT - feature request #4101

Default value for publish bit of new taxa must be configurable via DB preferences

03/07/2014 03:44 PM - Andreas Kohlbecker

Status:	Closed		**Start date:**

Target version:	Release 5.1			
Severity:	critical			

Description

in the Euro+Med project it is important that the publish bit is not set by default for new taxa. In other use cases setting the publish bit by default will be a requirement though. So we need a mechnism to configure this. Only user with the ROLE_PROJECT_MANAGER must be allowed to change the default behaviour of regarding the publish flag. So it is not a valid solution to implement this into a client like the tax editor, this must be a library functionality

We probably need 3 states. True, false and inherit from parent. Inherit from parent was mentioned in duplicating ticket #4133.

related to #1780 (Publish bit instead of marker)

- Subject changed from publish bit must not set by default for new taxa to [DISCUSS] publish bit must not set by default for new taxa

I think we first need to discuss what the best behaviour is. This is also related to the Versionining or Non-Versioning strategy in E+M.

We could also have a strategy where the publish flag is inherited from the parent.

    ...
```

#24 - 06/19/2018 06:07 PM - Andreas Müller

When I set to "Don't set publish flag" the new child taxon still has publish flag = true. Also inheriting from parent still does not work.

#25 - 06/19/2018 06:09 PM - Andreas Müller

We may also want to show the new publish flag value in the "new taxon" dialog. But this might be another ticket.

#26 - 06/26/2018 04:11 PM - Katja Luther

- Status changed from Feedback to Resolved

- % Done changed from 0 to 50

Applied in changeset taxeditor|8360c0ff2bbc09ed93a487bd5e7451f197785edf.

#27 - 06/26/2018 04:20 PM - Katja Luther

- Status changed from Resolved to Feedback

- % Done changed from 50 to 0

   at org.eclipse.core.runtime.SafeRunner.run(SafeRunner.java:42)
       ...
```

this was not related to this issue, but the NPE in Abcd206ImportConfigurator is fixed now.

The preference is not stored in the DB. After reopening the preference view the publish flag option is still not set.
