

Edit - feature request #4383

references in bibliography need de-duplication

09/01/2014 02:23 PM - Andreas Kohlbecker

Status:	New	Start date:	09/22/2014
Priority:	Priority09	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	0%
Category:	cdm-dataportal	Estimated time:	0.00 hour
Target version:	Reviewed Next Major Release		
Severity:	normal		
Description			
<p>the bibliography is assembled by making use of the cdm datportal footnote system. The FootnoteManager is not fully de-duplicating original sources which have different name in souce information. This can bee seen at the example of <i>Calamus aruensis</i> in the Palmweb portal.</p> <p>The bibliography of <i>Calamus aruensis</i> contains the following entries:</p> <pre>W.J. Baker & R.P Bayton & J. Dransfield & R.A Maturbongs, A revision of the Calamus aruensis (Areaceae) complex in New Guinea and the Pacific. 2003 in - Govaerts, R. & Dransfield, J., World Checklist of Palms (as Calamus aruensis Becc.) in - Govaerts, R. & Dransfield, J., World Checklist of Palms (as Calamus latisectus Burret) in - Govaerts, R., World Checklist of Seed Plants (as Calamus latisectus Burret) in - Govaerts, R. & Dransfield, J., World Checklist of Palms (as Palmijuncus aruensis (Becc.) Kuntze) in - Govaerts, R. & Dransfield, J., World Checklist of Palms (as Calamus hollrungii Becc.) in - Govaerts, R., World Checklist of Seed Plants (as Calamus hollrungii Becc.) in - Govaerts, R., World Checklist of Seed Plants (as Calamus aruensis Becc.)</pre> <p>which should be de-duplicated to a form, in which the name used in source information for each citation is assembled, like:</p> <pre>W.J. Baker & R.P Bayton & J. Dransfield & R.A Maturbongs, A revision of the Calamus aruensis (Areaceae) complex in New Guinea and the Pacific. 2003 in - Govaerts, R. & Dransfield, J., World Checklist of Palms (as Calamus aruensis Becc., Calamus latisectus Burret, Palmijuncus aruensis (Becc.) Kuntze, Calamus hollrungii Becc.) in - Govaerts, R., World Checklist of Seed Plants (as Calamus latisectus Burret, Calamus hollrungii Becc., Calamus aruensis Becc.)</pre>

- Target version deleted ()

#5 - 07/22/2015 12:37 PM - Andreas Müller

- Target version changed from *cdm_dataportal RELEASE 3.8* to *Reviewed Next Major Release*

- Priority changed from *New* to *Priority12*

#6 - 11/11/2015 04:45 PM - Andreas Kohlbecker

detaching from parent ticket #4314

#7 - 08/13/2018 09:39 AM - Andreas Kohlbecker

- Description updated

- Private changed from *Yes* to *No*

#8 - 08/13/2018 01:17 PM - Andreas Kohlbecker

- File *picture748-1.png* added

Same or similar problem reported by Walter:

bei http://caryophyllales.org/nepenthaceae/cdm_dataportal/taxon/46325539-e6b9-4db6-949e-ab222b25b775 wird die gleiche Referenz 4x ausgegeben – 2x wäre in diesem Fall genug (ich habe jetzt C auch mit dem Name-in-source versehen – jetzt sind's 4 gleiche Einträge).
