

EDIT - bug #4390

Titlecache of field unit does not update when changing field unit data via derived unit facade

09/02/2014 06:14 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	50%
Category:	cdmlib	Estimated time:	0:00 hour
Target version:	Release 4.6	Found in Version:	
Severity:	normal		
Description			
What I did in TaxEditor			
<ul style="list-style-type: none">• for some existing derived unit with field unit attached I updated the "locality" in the details view.• this automatically updates the title cache in the details view and also the specimen entry in the bulk editor• after saving and running new search I expect that also the field unit in the bulk editor has an updated title cache but this is not the case, only in details view it is updated• checking the database shows that the titleCache didn't update			
The same is true for using the Derivate Search in TaxEditor.

- Assignee changed from *Katja Luther* to *Andreas Müller*

please review

#9 - 03/01/2017 02:39 PM - Andreas Müller

This second parameter in this code to me does not make sense. Is always *false* IMO.

```
if (!specimen.isProtectedTitleCache()) {  
    specimen.setTitleCache(specimen.generateTitle(), specimen.isProtectedTitleCache());  
}
```

Changed this with 958adbe25 please check for correctness.
