EDIT - feature request #4452

p2 update problem with nebula compositetable dependency

10/28/2014 05:47 PM - Cherian Mathew

Target version:	Release 4.7			
Severity:	normal			

Description

The eclipse nebula compositetable dependency blocks the update of the taxeditor , since the taxeditor update mechanism expects an updated version of the jar.

This problems comes from the fact that we are using the p2 repository of the nebula project and since the compositetable is still in incubation, the repository is a snapshot one - http://www.eclipse.org/nebula/downloads.php.

This implies that for every build of the taxeditor the latest version of the compositetable jar will be pulled from the snapshot repository, which could potentially change on a daily basis, leading to the problem we have.

The solution would be to have a stable repository (p2 or maven) so that we can use a stable version of nebula widgets in building the editor and change only when we need to.

History

#1 - 10/28/2014 06:14 PM - Cherian Mathew

- Status changed from New to In Progress

changed nebula p2 repository to the one which is archived but stable (retention period of 2 years starting Q32014) - r22022

The more long-term solution will be to have our own p2 repository with these plugins

#2 - 10/29/2014 12:00 AM - Andreas Müller

sounds good as long as there are no licence problems involved

#3 - 10/29/2014 10:11 AM - Cherian Mathew

Good point. I don't see a mention of the license on the project site http://www.eclipse.org/nebula/downloads.php, but they are offering the entire repository as a zip download, so it seems like it can be redistributed.

Also, I have checked the fix when trying to update today using yesterdays version of the editor. The version of the compositetable is the one from the newly set repo and the updates run through without problems.

#4 - 11/24/2014 01:29 PM - Cherian Mathew

- Target version deleted (TaxEditor RELEASE 3.4.0)

Moving tickets to 3.4.1 milestone

#5 - 03/16/2015 05:32 PM - Cherian Mathew

- Target version deleted ()

Moving tickets that were auto assigned to me to the unassigned milestone

#6 - 06/24/2015 11:31 AM - Andreas Müller

- Target version deleted ()

- Priority changed from New to Priority13

#7 - 03/28/2017 10:53 AM - Patrick Plitzner

- Description updated

- Assignee changed from Cherian Mathew to Patrick Plitzner

- Target version changed from Reviewed Next Major Release to Release 4.7

With the change to eclipse neon we have to check if the update still works because I have also used the latest release of the nebula widgets
