### History

---

#### #1 - 05/18/2015 12:14 PM - Katja Luther

- Status changed from New to Resolved
- Assignee changed from k.luther - to Andreas Müller

implemented in r23831

#### #2 - 05/18/2015 05:59 PM - Andreas Müller

- Assignee changed from Andreas Müller to k.luther -

German translation for both converters is still missing.

#### #3 - 05/27/2015 06:25 PM - Andreas Müller

If an error occurs during convert only a popup appears saying that there was an error but even no stacktrace. We should at least use standard MessageUtil error handling or even better specific error handling.

This problem was easy to reproduce while saving of new authors did not work correctly (#4907). As this is fixed now I can't easily reproduce. However, correct error handling should be easy to implement.

#### #4 - 05/27/2015 06:31 PM - Andreas Müller

I think it is enough to label the menu items "Convert to team" and "Convert to person". As we show the type in grey it should be clear what the current type is.

#### #5 - 05/27/2015 06:34 PM - Andreas Müller

If a person is to be transformed into a team but this is not possible the error dialog title says "Can not convert Team to Person" but should say "Can not convert person to team".

Also we may think about more specific information why transformation is not possible

#### #6 - 07/16/2015 02:01 PM - Katja Luther

- Status changed from Resolved to Closed
- Resolution set to fixed
- % Done set to 100
- Target version changed from TaxEditor RELEASE 3.6.0 to Release 3.7

the pop up is now a MessagingUtils.errorDialog(...), the german translation is added, the exception handling is improved.
