Severity:	normal			

Description

Loading images for image rich higher taxa takes time. We may try to improve performance by spliiting loading into

- load complete uuid list and create placeholders for each image

- asynchronous loading for each uuid or ranges of uuids (the first ~12 images are most important, further images may load later

Previous ticket #2686

For details and examples see there

Maybe to be implemented together with asynchrounous implementation for general page (ticket ?)
