Description

TaxonInteraction is currently used in the Corvids portal for "Brood parasite" and "Ectoparasite". The latter one having quite a lot entries, looking a bit messy right now.

Example: http://dataportal.corvids.de/cdm_dataportal/taxon/47774001-5e0f-4e45-a240-358aa4fc736e

1. Please add ";" and a space between individual TaxonInteraction-records; similar to other feature types.
2. Please change to alphabetical order; In this example first record must be *Philopterus albidus*
