EDIT - feature request #5356

Handle exceptions which require reconnect

10/26/2015 04:08 PM - Cherian Mathew

Status:	New	**Start date:**	
Priority:	New	**Due date:**	
Assignee:	Andreas Müller	**% Done:**	0%
Category:	taxeditor	**Estimated time:**	0:00 hour
Target version:	Release 5.46		
Severity:	normal		

Description

There are some exceptions which should 'never' occur in remoting, but when they do the safest option is to perform a reconnect.

These include,

- org.hibernate.LazyInitializationException: could not initialize proxy - no Session

- java.lang.IllegalStateException: An entity copy was already assigned to a different entity

In the case of these exception, we should popup a cdm error dialog. with the extra hint to the user to reconnect.

History

#1 - 11/27/2015 03:53 PM - Cherian Mathew

- Target version changed from Remoting 5.0 to Remoting 6.0

This can be added to the exception handling in eu.etaxonomy.taxeditor.ApplicationWorkbenchAdvisor.

#2 - 12/05/2020 01:20 PM - Andreas Müller

- Description updated

- Target version changed from Remoting 6.0 to Release 5.19

- Private changed from Yes to No

moving this open remoting 6.0 ticket to current milestone to decide what to do with it.

Is the above mentioned solution really possible?

#3 - 01/27/2021 03:43 PM - Andreas Müller

- Target version changed from Release 5.19 to Release 5.21

#4 - 03/10/2021 02:35 PM - Andreas Müller

- Target version changed from Release 5.21 to Release 5.22

#5 - 04/16/2021 09:47 PM - Andreas Müller

- Target version changed from Release 5.22 to Release 5.46
