Description

From A.Mueller #5267

When I edit a specimen it often does not show up in the bulk editor search anymore afterwords. It looks like this is related to the fact that the cache strategy is not set correctly anymore. Most of the specimen appear in the database in the titlecache as "-title cache generation not implemented-" or "class eu.etaxonomy.cdm.model.occurrence.DerivedUnit: 04e0a846-7775-426b-a9e0-cc783f96c8d2" instead of the titlecache shown beforehand. Probably the new objects do not use a DerivedUnitFacade cache strategy any more but they should.

History

#1 - 04/29/2017 12:32 AM - Andreas Müller

- Description updated

- Assignee changed from Andreas Müller to Patrick Plitzner

- Target version changed from Remoting 6.0 to Release 4.7

Patrick, Katja, could you please check if this is still an open issue

#2 - 05/10/2017 06:33 PM - Andreas Müller

- Private changed from Yes to No

#3 - 05/11/2017 11:14 AM - Andreas Müller

- Target version changed from Release 4.7 to Release 4.8

#4 - 06/21/2017 10:45 AM - Andreas Müller

is this still an open issue?

#5 - 07/07/2017 11:21 AM - Patrick Plitzner

- Status changed from New to Closed

I played around a little with the bulk editor and the specimen editor open and edited, saved, switched perspectives and searched. All seems to work fine. Also the description of this issue is a bit to vague to reproduce.

#6 - 07/07/2017 01:51 PM - Andreas Müller

- Description updated

#7 - 07/07/2017 01:52 PM - Andreas Müller

- Status changed from Closed to Worksforme

- Target version deleted (Release 4.8)

I think this is a duplicate for a bug that was fixed some time ago. Therefore I remove version and set to worksforme.
