

EDIT - bug #5492

Doubtful synonyms and misapplied names to be displayed correctly

01/22/2016 05:01 PM - Andreas Müller

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 4.0	Found in Version:	
Severity:	normal		
Description			
Currently synonyms and misapplied names with taxon status doubtful do not show the doubtful marker (question mark in front) and do not show TaxonBase.namePhrase at all.			
Example from Cuba Checklist http://portal.cybertaxonomy.org/flora-cuba :			
<ul style="list-style-type: none">• "Oncidium carthaginense" which is a misapplied name for Trichocentrum undulatum in Flora of Cuba http://portal.cybertaxonomy.org/flora-cuba . Should be<ul style="list-style-type: none">◦ ? "Oncidium carthaginense" auct.• Pharbitis calycosa A. Rich. should be ?Pharbitis calycosa A. Rich.

History

#1 - 02/19/2016 12:43 PM - Andreas Müller

- Keywords set to Cuba
- Target version changed from Unassigned CDM tickets to Release 4.0
- Priority changed from New to Highest

#2 - 03/09/2016 05:14 PM - Andreas Müller

- Subject changed from Doubtful misapplied names to be displayed correctly to Doubtful synonyms and misapplied names to be displayed correctly

#3 - 03/23/2016 05:59 PM - Andreas Kohlbecker

- Status changed from New to Resolved
- Assignee changed from Andreas Kohlbecker to Andreas Müller

done : cdm-dataportal ea3933d r27551

I was unsure if the '?' and the taxon name should be separated by a whitespace or not. In the example above both variants are given:

1. for invalid taxa with and space before the double quotes
2. for hetero- and homo-typic synonyms without that separator

Was this intentional?

I implemented the variant with the space separator as general solution.

#4 - 03/30/2016 03:26 PM - Andreas Müller

Hallo,

hier eine kleine Layoutfrage in die Runde. Bei doubtful Taxa, Synonymen und Misapplied Names setzen wir ja ein ? vor den Taxon Namen.

Die Frage ist jetzt, ob zwischen das Fragezeichen und den Namen ein Leerzeichen sein sollte oder nicht.

Bei der Cachegenerierung (z.B: im Editor) haben wir glaube ich derzeit keine Fragezeichen, während im Portal derzeit ein Leerzeichen gesetzt wird.

Wie ist das in der Literatur üblich?

Relevant für <http://dev.e-taxonomy.eu/trac/ticket/5492>

Viele Grüße,

Andreas M.

====

... falls kein Leerzeichen gesetzt werden soll, gilt das auch für Misapplied Names? Diese haben ja das Anführungszeichen, z.B.

? "Oncidium carthaginense" auct.

Fixed correctly. Before closing the ticket we should wait what taxonomists say about the whitespace issue.

#6 - 04/22/2016 02:51 PM - Andreas Kohlbecker

Hallo Andreas,

ich vermute, dass es da keinen einheitlichen typographischen Standard in der Literatur gibt. Ich persönlich würde in allen Fällen ein (zumindest schmales) Leerzeichen vor dem Taxonnamen [bei Synonymen keines nach dem "=" oder "-" Zeichen](#) bevorzugen.

Beste Grüße,

Norbert

Replying to [a.mueller](#):

is #5753 already implemented for this ticket?

This is done now!

#11 - 06/01/2016 10:45 PM - Andreas Müller

- Assignee changed from Andreas Müller to Andreas Kohlbecker

Unfortunately we should return #5753 as the question mark is too small.

Also the question mark should be in italics (even not in case of protected title cache) as it is pure taxon information. Not related to the name. By the way, also auct. (appended phrase of the taxon) should not be in italics as it is also taxon information (while an appended phrase of the name part should be in italics I guess).

Beside this the ticket can be closed.

#12 - 06/02/2016 01:32 PM - Andreas Kohlbecker

- *Status changed from Resolved to Closed*
- *Resolution set to fixed*
- *% Done set to 100*

the italic ? is fixed now http://test.e-taxonomy.eu/dataportal/preview/flora-cuba/cdm_dataportal/taxon/32bf30fd-9141-4789-bffc-002cf5b46659

#13 - 06/02/2016 02:50 PM - Andreas Müller

moved the auct. (appended phrase) issue to new ticket [#5861](#)

#14 - 08/31/2018 10:20 AM - Andreas Kohlbecker

- *Description updated*
- *Private changed from Yes to No*

#15 - 08/31/2018 11:03 AM - Andreas Müller

- *Related to feature request #5647: Aggregate misapplied names with multiple sensu references added*
