|---|----------------|------------------------|-----------|
| Status: | Closed | Start date: | |
| Priority: | Highest | Due date: | |
| Assignee: | Andreas Müller | % Done: | 100% |
| Category: | cdm | Estimated time: | 0:00 hour |
| Target version: | CDM UML 4.0 | | |
| Severity: | normal | | |
| Description This URI field should hold only Identifiers using URI syntax, which are presumable stable over time and which are the preferred identifier of the collection/institution owning/managing the specimen. An example for such a URI are the URI published according to the CETAF recommendations (http://wiki.pro-ibiosphere.eu/wiki/Best_practices_for_stable_URIs). A test tool for quality testing of such URIs exists at http://herbal.rbge.info/ see also #5515 for implementation on dataportal and #5764 for Editor | | | |
