

## EDIT - bug #5676

### Sensu does not show up if no author exists for secundum reference

<b>Description</b>			
<p>If a secundum reference used in a misapplied name does not have an author no sensu information is shown on the dataportal.</p> <p>By default it should show instead the title cache (this is how the taxon title cache strategy does it).</p> <p>Also I wonder if it is wanted behavior, that the publication date is usually not shown for the sensu reference even if given.</p> <p>I tried this with <i>Cyperus unifolius</i> which is a misapplied name for <i>Cyperus filiformis</i> in the Cuba Checklist. I preliminary removed the author FC-S(which is actually not the correct author string, later replaced by Alain [hno.]).</p>

Still does not work. Shows only "Cyperus unifolius" but should show "Cyperus unifolius" sec. Fabaceae.xlsx (added this for testing). Fabaceae.xlsx only has a protected titleCache, not title, no author, ...

##### #3 - 05/11/2016 05:56 PM - Andreas Kohlbecker

where did you test this? Can you give an example uri?

As mentioned in Cuba Checklist:

Another example is "Elephantopus scaber" sensu FC-S & A&S which shows only "A&S" :

This issue is ready for reviewing.

I created a dedicated test case which should cover all aspects:

[http://int.e-taxonomy.eu/dataportal/integration/reference/cdm\\_dataportal/taxon/c6716cee-2039-4ba8-a239-4b1b353f9c84](http://int.e-taxonomy.eu/dataportal/integration/reference/cdm_dataportal/taxon/c6716cee-2039-4ba8-a239-4b1b353f9c84)

**#14 - 11/03/2016 02:48 PM - Andreas Müller**

- Status changed from Resolved to Feedback
- Assignee changed from Andreas Müller to Andreas Kohlbecker

This seems to work fine now.

The only open question is "Also I wonder if it is wanted behavior, that the publication date is usually not shown for the sensu reference even if given."

If it is wanted behavior, then we can close this ticket as it is. Otherwise we may want to create a follow up ticket.

The date seems to be shown now. I tested with the above link

[http://int.e-taxonomy.eu/dataportal/integration/reference/cdm\\_dataportal/taxon/c6716cee-2039-4ba8-a239-4b1b353f9c84](http://int.e-taxonomy.eu/dataportal/integration/reference/cdm_dataportal/taxon/c6716cee-2039-4ba8-a239-4b1b353f9c84) by adding a date for A&S.

This was shown.

I only wonder if we want to add a test that guarantees this also for the future.

Please decide. However, we can close this ticket as it is fully fixed.
