

EDIT - feature request #5687

search for alternative identifiers

04/07/2016 01:04 PM - Katja Luther

Status:	Closed	Start date:	
Priority:	Highest	Due date:	
Assignee:	Katja Luther	% Done:	100%
Category:	taxeditor	Estimated time:	6:00 hours
Target version:	Release 5.0		
Severity:	normal		
Description In the reference selection dialog alternative identifiers should be usable for searching. In search result the alternative identifier and the titlecache of the reference should be displayed (behind titleCache in brackets []). Make configurable via preferences. => moved to #7283 There is a method in IdentifiableServiceBase "findByIdentifier" which might be useful.

#17 - 12/15/2017 01:22 PM - Katja Luther

- Status changed from New to In Progress

the first implementation allows in reference selection dialogs to search for identifier. The user can choose by clicking the checkbox.

We also can move the selection of using identifier or not to the preferences.

check, what to copy to [#7283](#)

#25 - 04/30/2018 04:26 PM - Andreas Müller

- Assignee changed from Andreas Müller to Katja Luther

Currently the identifier search does not work for me.

What I did in rem_conf_am:

1. Created a new Identifier type "Reference identifier (Test)".
2. Opened references starting with A.Gray and added identifier of given type. Once I used "12345", for the second "45678"
3. Tried to add a nomenclatural reference to taxon by using "Use Identifier" and entering "123*" => no result shown
4. Same with new facts reference
5. Only with "Use Identifier" and entering pure "*" I got the expected result with showing both references having and identifier attached.

#26 - 04/30/2018 04:27 PM - Andreas Müller

In search result the alternative identifier and the titlecache of the reference should be displayed (behind titleCache in brackets []).

This seems not to be implemented yet.

Note: the search works now as expected

#33 - 05/06/2018 01:57 PM - Andreas Müller
