EDIT - bug #5696

When selecting a new name for a given taxon the name relationships are not updated

04/11/2016 01:18 PM - Andreas Müller

Status:	Closed		**Start date:**	
Priority:	Highest		**Due date:**	
Assignee:	Katja Luther		**% Done:**	100%
Category:	taxeditor		**Estimated time:**	0:00 hour
Target version:	Release 5.0			
Severity:	normal		**Found in Version:**	

Description

When selecting a new name via the select name button in taxon/synonym details view the name relationship list is not updated while the name section is updated.

Maybe also other relationships have the same problem (type desigantions, ...) but I havn't tested it.

First I still had problems to reproduce the wanted result. However, it looks like this was because I added the new name in parallel. So maybe it does not work if the new name was very recently edited. But if the new name is safely stored in the DB and only then the taxon that should change the name is opened and the name changing takes place it looks like everything is finde.

I think we can close the ticket and whenever something does not work 100% correct we should open a new ticket.
