<b>Description</b>			
...followed by Primary Media Source and then followed by others alphabetically. Currently order seems to be according to the enum.			
At the end we should have Other followed by Unknown.			
We may also think about a Comparator defining the order which can also be used for #3185			
If possible for media sources, Primary Media Source should be first.			

#### Associated revisions

##### Revision 0c7c9656 - 01/06/2017 02:36 PM - Patrick Plitzner

fix #5714 Add possibility for adding a comparator to EnumComboElement

- for Sources always have PrimaryTaxonomicSource or PrimaryMediaSource on top depending on IdentifiableSource

##### Revision 1b0d0ec1 - 01/18/2017 05:54 PM - Patrick Plitzner

ref #5714 Fix ordering of source types

- order by key instead of message
- always have either taxonomic or media source as first and the other as second

##### Revision 46360ec1 - 02/08/2017 02:11 PM - Patrick Plitzner

ref #5714 The last two terms are always "Other" followed by "Unknown"

Only Primary Taxonomic Source is on top, but Primary Media Source is not yet second and also no alphabetic ordering of the other types.

**#6 - 01/17/2017 11:52 PM - Andreas Müller**

... Also "Other" is not in the expected order.

**#8 - 01/17/2017 11:55 PM - Andreas Müller**

Have you checked if we can reuse / combine the Comparator developed for #3185?

The other comparator is used for comparing the sources and not the terms themselves. There may be a small chance for refactoring but for now I would rather close this ticket if everything is fine.

This is still an open issue, see description: "At the end we should have Other followed by Unknown."
