

EDIT - feature request #5727

Offer German translation for texts used in molecular plugin

04/19/2016 03:08 PM - Ben Stöver

Status:	Closed	Start date:	
Priority:	Priority08	Due date:	
Assignee:	Ben Stöver	% Done:	90%
Category:	taxeditor	Estimated time:	0:00 hour
Target version:	Campanula LibrAlign Integration		
Severity:	normal		
Description			
The menu entries and other elements in the molecular plugin currently have static English labels. German translations should be provided and the according parameter files should be used to allow alternative languages.			

History

#1 - 04/19/2016 03:08 PM - Ben Stöver

@Patrick: Andreas told me that on 2016-04-15. Earlier you told me, that you would do that. Are you still planning that or should I be doing it?

#2 - 11/19/2016 01:55 PM - Ben Stöver

- Description updated

- Status changed from New to Closed

- % Done changed from 0 to 90

Most translations have now been done. Translating will from now on be done directly in the development further of the molecular plugins.
