Description

There are many places where the Editor code needs to be cleaned up in terms of real dependencies and code which links to dependencies but is not necessary.

Most important issue is to keep only 1 instance of cdmlib-remote-webapp. Currently there is 1 instance in taxeditor.cdmlib and 1 in taxeditor.remote-webapp.

Also important to reduce the dependencies in taxeditor.cdmlib. With using only remoting from now on, we do not need most of the cdmlib-dependencies anymore. This will reduce the current size of libraries of 120MB tremendously.

Further tasks are to clean up all poms and Manifest.MFs (see also #5530) etc.

Idea from #967: Split the cdmlib plugin into two plugins: One for cdmlib dependencies and one for taxeditor-only dependencies

With the commit taxeditor|d4e83e37febf32601f065390770060398ec63a80. I re-added the dependencies needed for creating a fresh, new data model for an empty data source.
These dependencies can be removed when we moved this functionality completely to the server side

cdmlib-remote-webapp is now removed from taxeditor.cdmlib which reduces the size of TaxEditor about 115 MB

#29 - 07/15/2020 03:46 PM - Andreas Müller

- *Status changed from In Progress to Resolved*

- *Assignee changed from Katja Luther to Andreas Müller*

Many improvements have been done in this ticket. For further improvements a follow up ticket exists: #9154

Open issue is still to reattache H2 and PostGreSQL drivers as they are needed for database view edit dialog for testing the connection or find a better solution for testing. Datasource view could be moved to taxeditor.webapp as it is only relevant together with it.

#30 - 07/15/2020 03:46 PM - Andreas Müller

- Subject changed from Clean up Editor dependencies to Reduce TaxEditor size

#31 - 07/15/2020 04:12 PM - Andreas Müller

- Copied to bug #9145: Add sources to E+M IPNI distribution data added

- Assignee changed from Andreas Müller to Katja Luther

Can you please review if you think all up-to-now changes (removing of dependencies etc) are ok. I think you do not need to review Patricks changes from 3 years ago as they are in production mode for long time, now.

There is a follow-up ticket for further size reductions.

#38 - 08/17/2020 08:47 AM - Katja Luther

- Status changed from Resolved to Closed

- Assignee changed from Katja Luther to Andreas Müller

- % Done changed from 80 to 100

I checked all removed dependencies and they are not used anyhwere and I did not get any problems while working with the editor, so I close this tickeet.

#39 - 08/17/2020 09:14 AM - Andreas Kohlbecker

- Status changed from Closed to Feedback

Can you please add a summary to the ticked description on the amount of the size reduction?
This could be valuable for later.

#40 - 08/17/2020 02:40 PM - Andreas Müller

- Status changed from Feedback to Closed

The size reduction was about 120MB. Most of it (110MB) related to the removed remote-webapp.war file in taxeditor.cdmlib. The remaining related to some dependencies that removed in taxeditor.cdmlib.

#41 - 08/19/2020 08:41 PM - Andreas Müller

- Target version changed from Release 5.18 to Release 5.17
