EDIT - feature request #5950

Add duplicate method for type designations

07/05/2016 11:29 AM - Andreas Müller

Status:	Duplicate		**Start date:**	
Priority:	New		**Due date:**	
Assignee:	Katja Luther		**% Done:**	100%
Category:	taxeditor		**Estimated time:**	0:00 hour
Target version:				
Severity:	normal			

Description

Often users want to enter type designation data for a taxon name for multiple types (e.g. holotype and some isotypes). For those types having the same filed unit a method that duplicates the specimen is very much required to fasten the data entry.

A remaining dialog will only ask for entering collection (derived unit) information and type designation status + reference.

see also #5947 for dataportal related issues.
