

Edit - bug #6025

Remaining open issues for cdmlib-db

08/01/2016 01:54 PM - Andreas Müller

Status:	New	Start date:	08/01/2016
Priority:	New	Due date:

Target version:	Unassigned CDM tickets	Found in Version:	
Severity:	normal		
Description			
In #5751 a new cdmlib module cdmlib-db has been created.			
In this ticket you find the remaining issues that still need to be handled correctly or are blocked by other issues.			
1) Use cdmlib-db in cdmlib-test. Currently this is not yet possible as this creates problems with mysql-connector in cdmlib-remote-webapp. This is caused by or fixing is blocked by #6023 .			
One work-around solution could be to explicitly exclude mysql from cdmlib-db in cdmlib-test			
2) In TaxEditor webapp the dependent db-driver libraries still need to be explicitly mentioned for dependency copy. Transitive copy is possible but then we have to remove all other dependencies explicitly from being copied. Maybe there is a more elegant solution.
