<b>Target version:</b>	Unassigned CDM tickets		
<b>Severity:</b>	normal		

#### Description

successor of #4497

The area filter in the advanced search needs to be complemented with a filter for the distribution status. However, it is not clear how the filters on area and status are combined. Potentially useful combinations are like:

- (area1 AND status1) OR (area2 AND status2)
- (area1 OR area2) AND (status1 OR status2)

Which variant is more suitable for the real world use cases has already discussed in the context of other projects (Andreas Müller knows which one).

#### History

#2 - 09/23/2016 03:06 PM - Andreas Müller

- Category set to Import
