

EDIT - bug #6116

Advanced Search area filter layout needs to be improved

10/04/2016 11:12 AM - Andreas Müller

Status:	New	Start date:	05/09/2022
Priority:	New	Due date:	05/13/2022
Assignee:	Katja Luther	% Done:	0%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:	Release 5.44	Found in Version:	Release 4.3
Severity:	normal		
Description			
The new resizable version of the area filter looks much better already. But 2 issues need to be solved. 1) If > 1 vocabularies are shown the second and maybe also further vocabularies do not have a label anymore it is somehow hidden under the slider. 2) If a vocabulary has only few terms (e.g. because it is used rarely or accidentally) the covering area should not be larger than the required area. Otherwise there is a lot of whitespace as default. Of course this can be changed by the user by using the slider but still ... Issue 1) is definitely more critical than 2)
