

EDIT - bug #6121

NPE during portal web service requests that go through BaseController.doGetMethod()

10/06/2016 01:21 PM - Andreas Kohlbecker

Status:	Worksforme	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	0%
Category:	cdmlib-remote	Estimated time:	0:00 hour
Target version:		Found in Version:	
Severity:	normal		
Description			
For example:			
http://api.cybertaxonomy.org/edaphobase/portal/taxon/a032b2bc-84dd-44d5-a149-57a3e23da605/sec.json			
Caused by: java.lang.NullPointerException

History

#1 - 10/06/2016 03:23 PM - Andreas Müller

Be aware that the edaphobase uuids are not yet stable

#2 - 10/27/2021 12:35 AM - Andreas Müller

- Status changed from New to Feedback

- Target version changed from Unassigned CDM tickets to Release 5.45

Is this still an open issue? I tested with <http://api.cybertaxonomy.org/euromed/portal/taxon/4a889e6c-9816-4745-9d06-146969da30c0/sec.json> and did not get an NPE. Does the NPE only gets thrown under certain conditions?

#3 - 01/20/2022 04:03 PM - Andreas Kohlbecker

- Status changed from Feedback to Worksforme

- Target version deleted (Release 5.45)

it is 5 years ago that we have created this ticket. I hardly remember potential conditions that are not documented here.
