Description

mail von Norbert:

ich möchte sicherheitshalber nochmal an meine Bugmeldung vom 28.7.16 erinnern, welche vielleicht untergegangen ist:
"wenn ich eine Referenz (einen Artikel) neu angelegt habe (mit create a new Ref.) und diese dann anschließend im "Choose a Reference" Wizard Eingabefenster angezeigt bekomme, wird diese nicht mehr gesucht und der OK-Button deshalb auch nicht aktiviert, so dass ich nur noch "Cancel" drücken kann. Muss dann erst neu nach der angelegten Referenz suchen um sie auszuwählen."

fix #6129: remove additional authorstring in selection dialog search field

History

#1 - 10/17/2016 01:13 PM - Katja Luther

This is because the search pattern is created out of the abbrevTitleCache concatinated with the authorstring.
Removing the authorstring at the end solves the problem.
