Description

NOTE: This issue has been imported from bitbucket (issue 3). All timestamps have been reset during the import.

We need another function that could obtain the list of taxa related to an input string ("like" search). In particular, in the portal the user will be able to select one result of the list, previously to obtaining the datasets related to that taxon.

(requesed by Antonio Garcia)

History

#1 - 10/21/2016 12:18 PM - Andreas Kohlbecker

- Tracker changed from bug to feature request
- Status changed from New to Closed

originally closed on 2015-01-19

implemented

#2 - 10/21/2016 01:08 PM - Andreas Kohlbecker

- Description updated

#3 - 07/23/2019 04:30 PM - Andreas Kohlbecker

- Category set to utis

#4 - 02/25/2022 05:17 PM - Andreas Müller

- Project changed from UTIS to EDIT
- Category changed from utis to utis
- Severity set to normal
