

EDIT - bug #6152

Classification incomplete in WoRMS taxa

10/21/2016 01:34 PM - Andreas Kohlbecker

Status:	Closed	Start date:	
Priority:	New	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	100%
Category:	utis	Estimated time:	0:00 hour
Target version:		Found in Version:	
Severity:	normal		
Description			
<i>NOTE: This issue has been imported from bitbucket (issue 14). All timestamps have been reset during the import.</i>			
The WoRMS services return incomplete classification information.			
There is a special service which returns the full classification: <code>getAphiaClassificationByID</code>			
Use this service to complete the classification of the returned taxa. For performance reasons it might be better to separate out the reporting on the classification into a separate service endpoint: #6156
