

EDIT - bug #6165

distributionInfoFor service no longer respects the statusColors parameter

10/26/2016 10:20 AM - Andreas Kohlbecker

Status:	Rejected	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	0%
Category:	data	Estimated time:	0:00 hour
Target version:		Found in Version:	Release 4.3
Severity:	normal		
Description			
The below request includes the statusColors parameter:			
http://api.cybertaxonomy.org/cyprus/portal/description/distributionInfoFor/b9757705-4ec9-45de-960b-49cbc09e02ba.json?recipe=EuroPlusMed&part=mapUriParams&statusColors={%0D%0A%22IN%22%3A%22%23339966%22%2C%0D%0A%22c%22%3A%22%23bdb76b%22%2C%0D%0A%22CA%22%3A%22%23ffff00%22%2C%0D%0A%22NN%22%3A%22%23ff9900%22%2C%0D%0A%22NA%22%3A%22%23ff0000%22%2C%0D%0A%22Q%22%3A%22%2300ccff%22%2C%0D%0A%22f%22%3A%22%23cccccc%22%0D%0A}			
The statusColors parameter in url-decoded form:			
<pre>{ "IN": "#339966", "c": "#bdb76b", "CA": "#ffff00", "NN": "#ff9900", "NA": "#ff0000", "Q": "#00ccff", "f": "#cccccc" }</pre>			
But the according response is missing the user defined colors.

History

#1 - 10/26/2016 10:21 AM - Andreas Kohlbecker

- Description updated

#2 - 11/02/2016 02:01 PM - Andreas Müller

- Category set to data

- Status changed from New to Rejected

- Target version deleted (Release 4.4)

This issue is a data issue related to merges of presence absence terms ([#5778](#)). The hardcoded colors have been changed in DB and portal now, so the problem should be solved.
