

EDIT - bug #6235

bug # 6115 (Closed): protect cdm content by drupal permission

page duplication when accessing restricted content

12/01/2016 05:42 PM - Andreas Kohlbecker

Status:	Rejected	Start date:	
Priority:	Highest	Due date:	
Assignee:	Andreas Kohlbecker	% Done:	0%
Category:	cdm-dataportal	Estimated time:	0:00 hour
Target version:		Found in Version:	
Severity:	blocker		

Description

At least in the flora-cuba portal there is strange effect when accessing a taxon page without sufficient permissions. The page appears duplicated the upper part of the browser window shows the access denied page and the lower part exposes the content which should be restricted!

History

#1 - 12/01/2016 05:43 PM - Andreas Kohlbecker

- Parent task set to #6115

#2 - 12/01/2016 05:44 PM - Andreas Kohlbecker

- File *access-denied-page-duplication.png* added

#3 - 12/01/2016 05:45 PM - Andreas Kohlbecker

- Description updated

#4 - 12/02/2016 08:33 AM - Andreas Kohlbecker

- Status changed from *New* to *Rejected*

- Target version deleted (*Release 4.4*)

This is not a problem in the code. The observed effect was caused by pending updates for the `cdm_dataportal` module and by the need to flush the drupal cache in order to refresh the menu and pages. This is done automatically in the test and production portals so that the problem should not occur there.
