Hi Gabi,

I enabled the sec reference display in your portal for the whole synonymy. The according settings are found here. [http://dataportal.corvids.de/admin/config/cdm\\_dataportal/settings/layout#edit-taxon-name](http://dataportal.corvids.de/admin/config/cdm_dataportal/settings/layout#edit-taxon-name). The configuration can be more configured more fine-grained per synonymy section.

The request for the extra header need a little programming though. I will create a new ticket for that: [#6239](#)
