Description			
<p>jenkins job cdm-webapp-HFX-FINISH fails due to merge conflict on merging master back to develop. The conflict occurs in the pom.xml at the project version.</p> <p>Using the same strategy as in cdmlib-HFX-FINISH does not work since <code>-DnoReleaseMerge=true</code> is not affecting the hotfix-finish goal.</p> <p>It seems we need to use the gitflow shell scripts for reliable HFX releases.</p>

- Description updated

#2 - 01/19/2017 01:29 PM - Andreas Müller

- Target version changed from Release 4.5 to Release 4.6

#3 - 01/24/2017 08:49 AM - Andreas Kohlbecker

- Status changed from New to Resolved

I created a new job based on taxeditor-HFX-FINISH, the old one is preserved as `cdm-webapp-HFX-FINISH (BACKUP)` which is disabled and can be deleted once the new job has run successfully.
